

Sunflowers Art Association

A short interview with Art McLeod:

- ***The most important thing that you should know about me is...***

I enjoy life to it's fullest.

- ***Art gives me...***

The ability to share what I have seen.

- ***I compare art to...***

A form of therapy. I don't spend a lot of time in art museums and galleries. I prefer to be outside and to be out and about is very therapeutic for me.

- ***Nature is for me...***

Nature for me is something that should be respected and protected, so we can ensure that the generations following us can see what we see, experience what we have.

- ***I am a part of Sunflowers Art Association because...***

It's nice to see a group who appreciates all forms of art and I am honoured to be a part of it.

- ***I find most fascinating in life...***

The diversity of life. I am amazed when I go out and in one day I can see so many different species of wildlife from the smallest insects to a thousand pound moose.

- ***I am dreaming of...***

Winter. With winter pretty much over here and it being my favourite season. I am already looking forward to next winter.
