

A short interview with Elisabeth Ertelthaler:

*** *The most important thing what you should know about me is...*** Grown up in the heart of the chalk alps in Austria, I dedicated most of my childhood to drawing and painting. My fascination was to realize the summary of harmony in nature and move the whole composition to a picture. In my early youth I decided to follow my inner appointment as artist with the goal, to absolve the education as fashion designer in Linz/Donau during five years. Here also have been created the grounding of my art style which mainly is engaged to visualize hope visions and inner fairy tales of children. My art should guide people to their inner truth and innocence of childhood.

*** *Art gives me...***

Hope, and it lets me recognize the essence of life in a way that I could describe as unity or infinity.

*** *I compare art to...***

Nothing, art is a shape that I couldn't compare to anything. It's a philosophy of life that is based on freedom.

*** *Nature is for me...*** A reservoir of truth and order.

*** *I am a part of Sunflowers Art Association because...***

It was a decision by my feeling. The philosophy of sunflowers fits to the message that I want to transport with my art.

*** *I find most fascinating in life...*** Life itself. Life creates itself by its own power and strives for growth and perfection.

*** *I am dreaming of...*** My vision... That man find back to their own inner nature and realize themselves as a part of universal order. With my art I want to give people one chance to find back to this order.
